

# SRI SRUTHI SAI BHARGAVI YALLA

sruthi.yalla5048366@gmail.com | 8328093135

LinkedIn | GitHub | LeetCode | HackerRank

## Career Objective

Motivated B.Tech (CSE – Data Science) student with strong foundations in Python, Data Structures, Machine Learning, and problem-solving. Eager to apply technical and analytical skills in real-world environments, contribute effectively to team-driven projects, and continuously grow through learning and innovation.

## Education

|                                                           |             |
|-----------------------------------------------------------|-------------|
| <b>Pragati Engineering College</b> , Andhra Pradesh       | 2023 – 2027 |
| B.Tech in Computer Science and Engineering (Data Science) |             |
| CGPA: <b>9.02</b>                                         |             |
| <b>Sri Chaitanya Junior College</b>                       | 2021 – 2023 |
| MPC   Percentage: <b>93%</b>                              |             |
| <b>Narayana E-Techno School</b>                           | 2020 – 2021 |
| SSC   Percentage: <b>99%</b>                              |             |

## Technical Skills

- **Programming Languages:** Python, SQL, JavaScript
- **Web Technologies:** HTML, CSS, REST APIs
- **AI/ML:** Machine Learning, Data Analysis, Model Building (Scikit-learn)
- **Core Computer Science:** Data Structures & Algorithms, DBMS, Operating Systems
- **Tools & Platforms:** Git, GitHub, Postman, UiPath

## Coding Profiles

- Solved 150+ coding problems on LeetCode focusing on Data Structures and Algorithms
- Practiced problem-solving and programming concepts on HackerRank

## Projects

### Career Recommendation System (Python, Machine Learning)

- Developed a machine learning model to recommend career paths based on user skills and interests
- Applied data preprocessing and classification techniques to improve prediction accuracy

### Emergency Triage Optimization System

- Designed a system to classify patient severity and prioritize treatment workflow
- Improved decision-making efficiency through structured data processing

### Smart Home Security System

- Developed a real-time human detection system using computer vision concepts
- Implemented alert mechanisms to enhance security monitoring

## Internship & Experience

|                                                                                       |                     |
|---------------------------------------------------------------------------------------|---------------------|
| <b>Cybersecurity Virtual Internship – AICTE</b>                                       | Apr 2026 – Jun 2026 |
| • Learned fundamentals of network security, cryptography, and cybersecurity practices |                     |
| • Worked on identifying vulnerabilities and implementing basic security measures      |                     |
| <b>RPA Developer Internship – UiPath</b>                                              | Mar 2025            |
| • Developed automation workflows using UiPath to improve operational efficiency       |                     |
| • Performed testing and debugging of automation processes                             |                     |

## Certifications

NPTEL – Python for Data Science | NPTEL – Database Management Systems | edX – Computer Science 101

## Leadership & Soft Skills

NSS Volunteer | English Club Leader  
Communication | Teamwork | Problem Solving | Time Management
